

Board of Directors

Below is a diagram of your board of directors. When you are going to make a decision, who are the people that you consult when making a decision? Who influences you? Write their names next to the circles below.

1. Who is at the table, and why are they there?
2. Who is NOT at the table, and why?
3. Is your table lopsided in some way and why? (lots of people of the same age/gender/family/non-family/race/religion, etc.)
4. If you had to rank-order the people at the table, how would you do so?
5. Did you write your own name down in one of the seats? Why, or why not?
6. Would there be different people for different kinds of decisions? Why?
7. Think of your support network, how would they challenge you? How would they support you?
